

What is MobiVisor MDM?

A Mobile Device Management System (MDM) **to administer mobile devices in companies.**

MobiVisor provides a central platform for **installing apps, implementing device usage guidelines and securing devices.**

MobiVisor can be hosted in our secure cloud or on your own server, as on-premise installation.

Important features for companies

- Assign different roles to users and group them according to their needed apps
- Assign different restrictions and allowances; on an individual level or for groups
- Get a clear overview over active devices and device usages
- Easily install and manage apps in bulk
- Pre-configure WiFi connections
- Distribute contacts to the devices
- Set up a secure email exchange configuration

MobiVisor for Android Devices:

For Android Devices, MobiVisor supports different enrolment methods that cater to the needs of every company: Device Owner (work purpose only), Company Owned Work Profile (usage for work and private, including two profiles), Bring Your Own Device (MDM is installed on a private device).

MobiVisor for Android Devices:

- Usable for Smartphones & Tablets
- Supports Single App & KIOSK Mode
- Configure firewall rules
- Set password configurations
- Configure system update guidelines

MobiVisor for Apple Devices:

We support MacOS, iPadOS and iOS. Additionally you can use the shared iPad function, where different users can work with a single device

MobiVisor for Apple Devices:

- Supports Apple DEP & VPP
- Home screen Layout
- Shared device configuration
- Passcode policies

Both for Android and for Apple – this is only a small amount of features MobiVisor offers.

Tell us what you need and we can figure out a way to configure it for you!

Why should you work with us?

At MobiVisor we put the emphasis of our work on **service** and **quality**. That means our goal is to provide the features our customers really need and improve them continuously.

A close ear to the customers needs is what makes **MobiVisor a usable and useful product** and provide **an enjoyable experience while delivering excellent features**.

Become a part of MobiVisor's Success Story!

Since our breakthrough on the MDM market, our MDM is used for over 20,000 licenses, distributed to over 164 customers.

We cherish our partnerships!

As a partner of MobiVisor MDM you can profit from our excellent marketing materials, we will regularly provide you with to make the best sales.

Additionally you have access to product tutorials and service support, if you wish. Whatever you need from us - we are happy to provide!

Profit from reseller conditions!

We offer great software - and we want you to profit from this too.

As we do not have a set profit margin, we are open to negotiate the conditions for each reseller - depending on your target groups and country.

Let's hear our customers

"Every MDM is complex and because of the complexity, the competent support is always available to us. We appreciate the team at IOTIQ and look forward to new innovations."

- **Drews Marine (Ship Building Company in Hamburg, Germany)**

"The experience is really very good. MobiVisor is very comprehensive, but not confusing. We were able to familiarize ourselves with the system very well. If there were any difficulties, they were resolved with IOTIQ's help. All in all, we are more than satisfied with the software."

- **VIA Berlin (Social Service Station in Berlin, Germany)**

"It is easy to work with the product and adaptation requests are taken into account. The user experience is accordingly very good."

- **Eigenbetrieb KiTa Halle (Preschool in Halle a. d. Saale, Germany)**
