## Updating the Apple VPP Token

In this tutorial, we'll show you how and where to update the Apple VPP token.

### What is Apple VPP?

- VPP stands for Apple Volume Purchase Program
- IT-Admins can use this to bulk purchase, distribute and manage apps/books for companies or educational purposes

### Usage in the MDM:

- To use VPP, the VPP token needs to be exchanged with the MDM
- The program itself is free to use, but you need to pay for the apps and the number of app licenses
- To purchase an app via VPP, a credit card information must be entered in the Apple Business Manager
- Once you have bought an app via VPP, it cannot be returned or exchanged

To update the Apple VPP Token you need the login to your MobiVisor domain and for the Apple Business Manager.

### Step 1

Login to your MobiVisor Domain. Go to **Config > Apple VPP** 

### Step 2

Access the Apple Business Manager with the link given in MobiVisor.

ces	🗘 Config 🛛 🖾 Messages 🗸	L Applications -				
	Integrations	Application Sulte				
t: 01/	ndroid Enterprise	File Manager				
	🖆 APNS Certificate	🐱 Secure Exchange				
	🗯 🛥 Apple DEP	Phone Contacts
