

MobiVisor Messaging

One messenger - for the whole company.
powered by IOTIQ GmbH

Real value thanks to MobiVisor Messaging

- **GDPR compliance:** MobiVisor Messaging is specifically designed to ensure data protection and compliance
- **Mobile access:** The user-friendly mobile app enables employees to access important information while on the move
- **Faster communication:** no slow email correspondence, instead instant, direct and efficient communication between colleagues and teams
- **Integration with other tools:** MobiVisor Messaging can be seamlessly integrated into existing workflows
- **Security and control:** Centralized management, control and sending of messages without having to worry about data breaches

MobiVisor Messaging compared

- Conventional messenger apps pose several **data protection problems**
 - Having access to the contact list
 - Transmission of contact information
 - Violations of informational self-determination
 - Storage of metadata
 - Data transfer and processing in third countries outside the EU

It's this simple:

- MobiVisor Messaging can be used together with MobiVisor MDM or as a stand-alone app
- The module is activated in your MobiVisor environment and can be used immediately
- We will provide you with product training on request
- We are also happy to offer you a free trial version

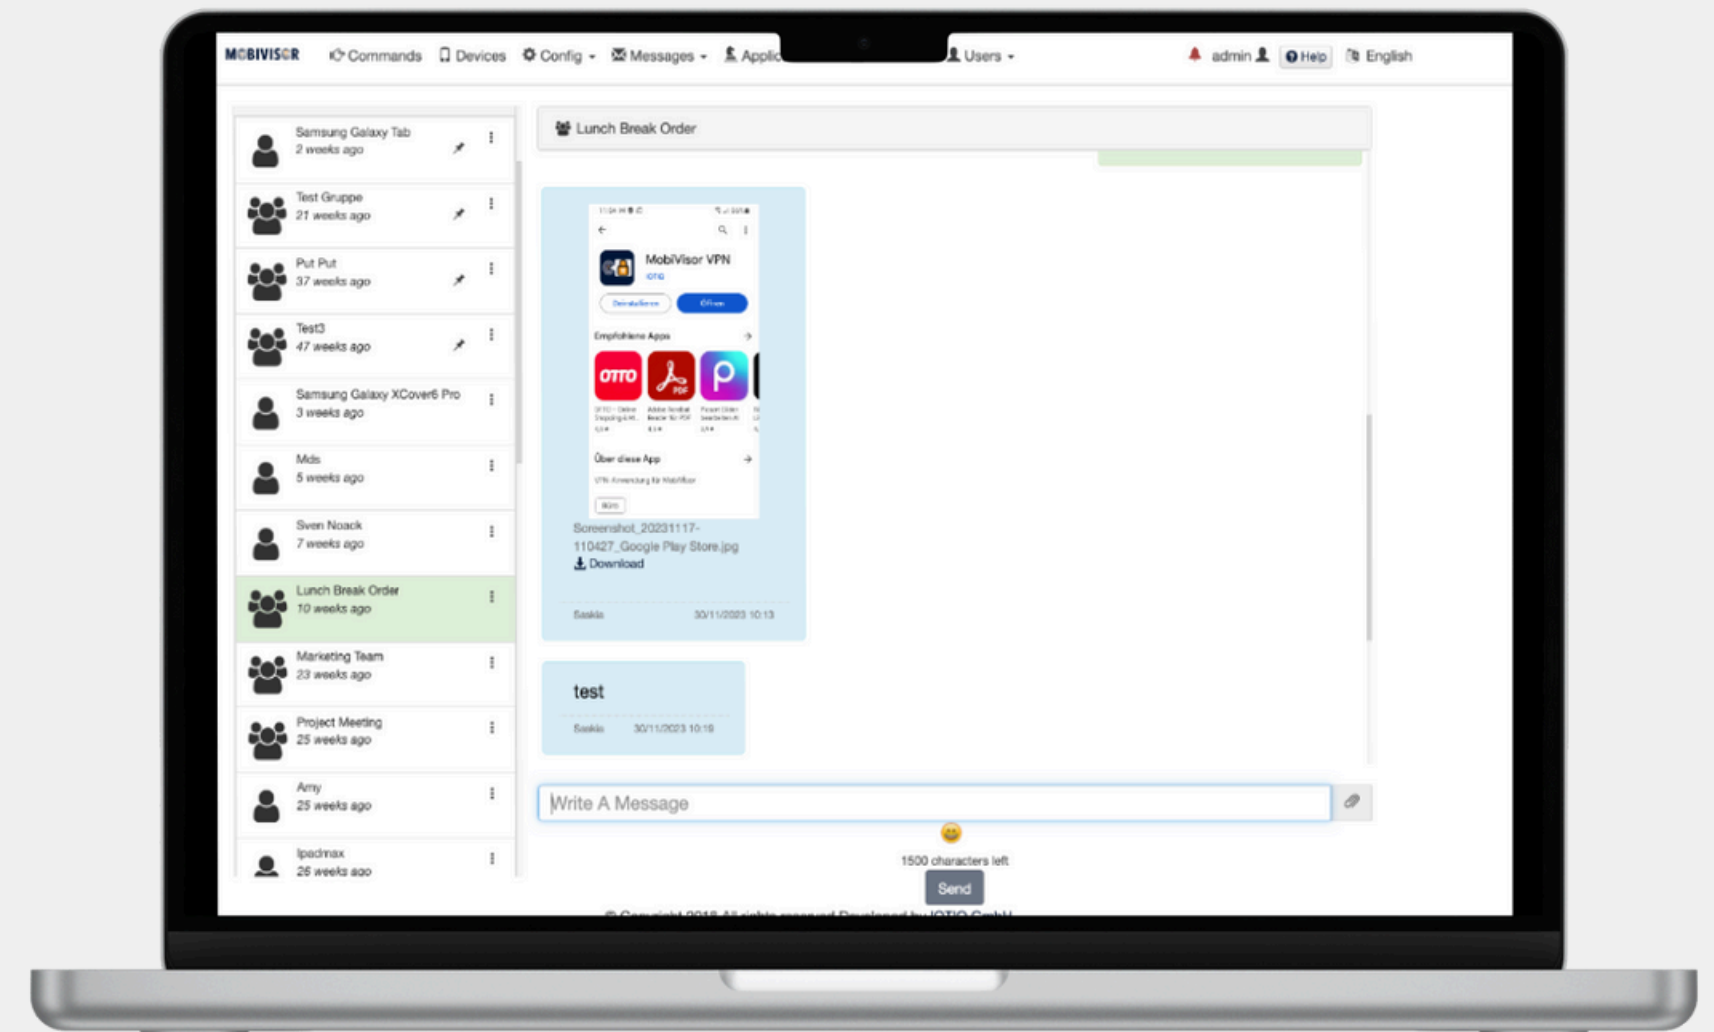

MobiVisor Messaging's features

- Encrypted sending of images, videos, voice and text messages, locations and files between users
- Sending messages from the MDM portal
- Display last online status
- View whether messages have been delivered and read
- Set or change group admins
- Assign users to closed groups
- Archiving chats and files

Prepare MobiVisor MDM

MobiVisor Messaging can be managed quickly and easily via MDM.

- 01** Log into MobiVisor MDM
- 02** Call up the messaging module, add users and create groups
- 03** Install MobiVisor Messaging on the devices via MDM

Instant communication. Everywhere and anytime.

MobiVisor Messaging can
also be used on devices
without an MDM client

- 01** Users get MobiVisor Messaging installed via the MDM - or download it from the Play / App Store
- 02** Login via MobiVisor or by username and password
- 03** Send messages immediately and use all functions!

MobiVisor Messaging: Data & Facts

- Simply add to MobiVisor MDM
- VCARD, CSV file or deposit individual contacts
- Send MobiVisor Messaging simply via installation command
- Changes in contacts are automatically sent to users
- Available for both iOS and Android
- Secure data transfer via SSL certificate
