

MobiVisor Secure Exchange

The mail service for your company.
powered by IOTIQ GmbH

Real added value through MobiVisor Secure Exchange

- **Seamless integration:** Secure Exchange integrates seamlessly into the existing email structure without users having to switch to a separate email app. This preserves the familiar user experience.
- **Automatic provision of company resources:** Employees' e-mail accounts are automatically stored - so they can access everything immediately
- **Improved security:** Secure Exchange offers additional security functions that secure the existing email structure. This protects sensitive company data and helps to meet compliance requirements.

It's this simple:

- MobiVisor Secure Exchange can be used together with MobiVisor MDM or as a stand-alone app
- The module is activated in your MobiVisor environment and can be used immediately
- We will provide you with product training on request
- We are also happy to offer you a free trial version

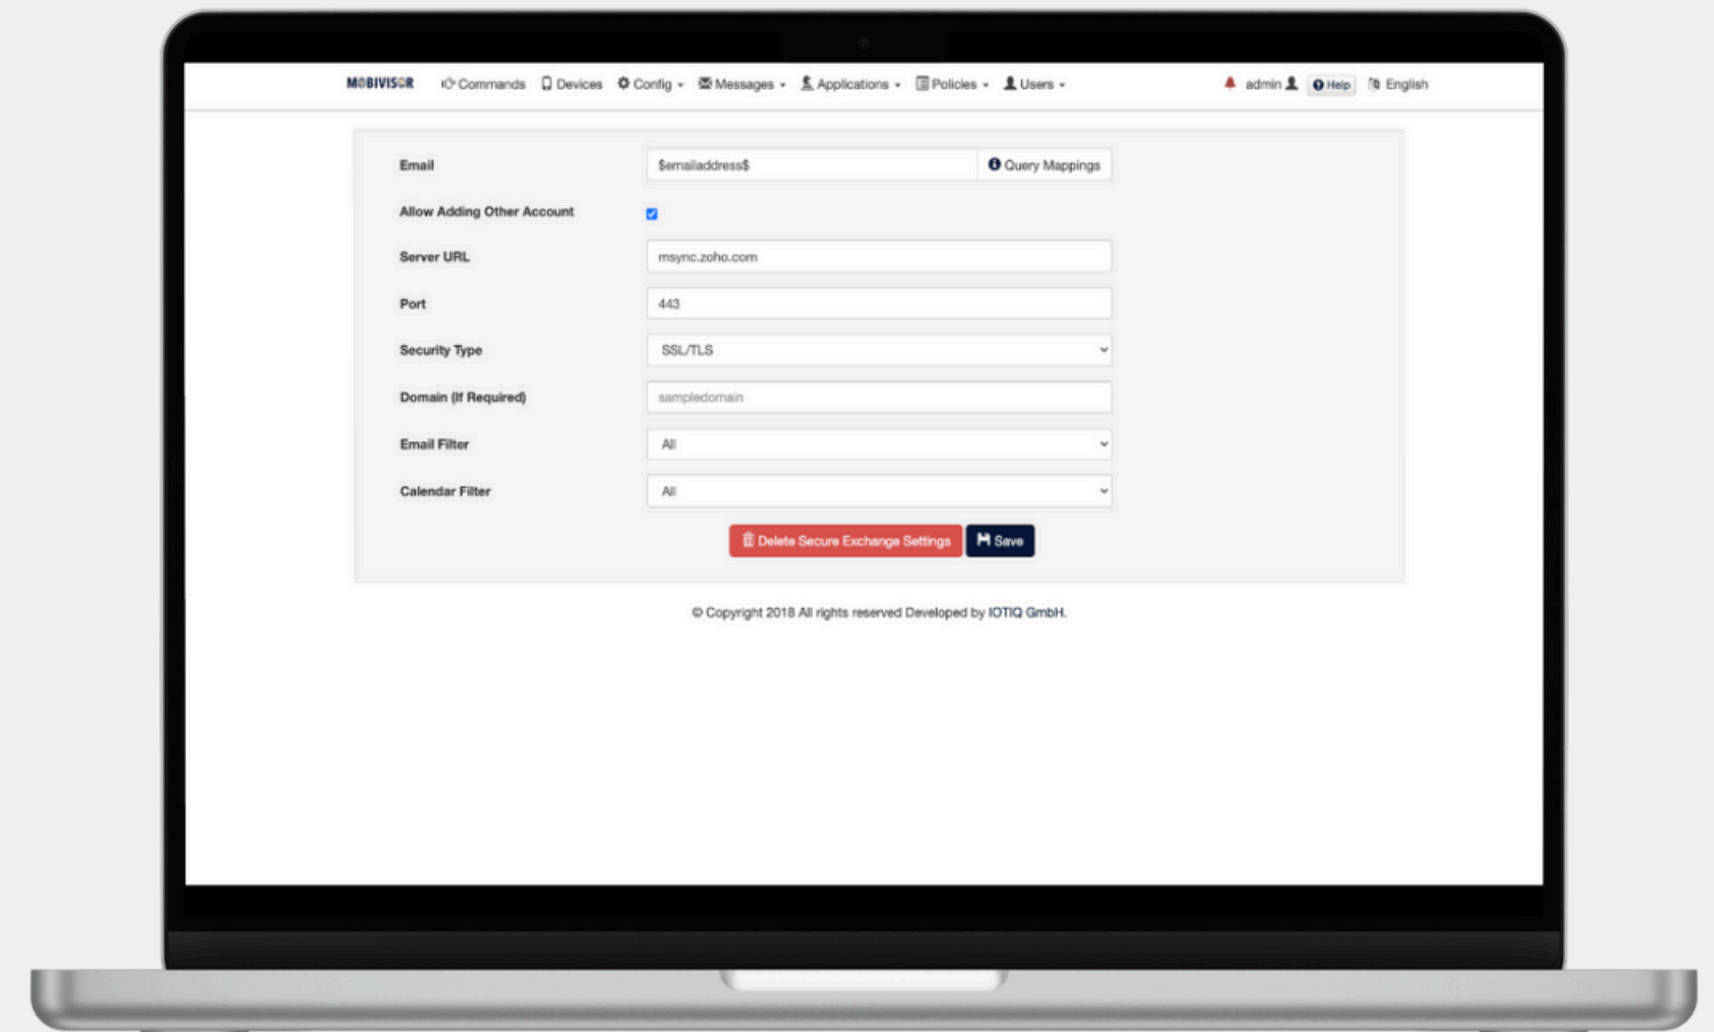

MobiVisor Secure Exchange's features

- Secure Exchange is not a standalone e-mail service, but **comprehensively secures your existing e-mail structure**
- All **standard e-mail functions** are included, such as changing font size, type and color, linking calendars, adding attachments, etc.
- Can be used together with all **business mail applications** (e.g. Outlook)
- Adoption of **internal security** guidelines
- Conversion of **files to PDF** when sending via Secure Exchange to prevent access to third parties
- Prevention of **screenshots** of attachments
- **Attachments** are only opened in the e-mail application

Prepare MobiVisor MDM

MobiVisor Secure Exchange kann be managed easily and securely via MDM.

- Configuration via personal MDM domain
- Select the mail types: IMAP/SMTP or ActiveSync
- Save the configuration
- Push the Secure Exchange app to the users' devices
- Login via MobiVisor, QR code or user name/password
- The mail settings are adopted by the server
- Missing information can be changed manually by the user

Lightning-fast communication. Everywhere and anytime.

MobiVisor Secure Exchange
can easily be used without an
MDM client.

- 01** Users can either get MobiVisor Secure Exchange installed via Mobile Device Management (MDM) or download it directly from the Play / App Store.
- 02** Login via MobiVisor or by username and password
- 03** Send messages immediately and use all functions!
