

MobiVisor per-App-VPN

Secure internet connection via tablet and smartphone.
powered by IOTIQ GmbH

Real added value with MobiVisor per-App-VPN

- **Individual configuration via MDM:** per-app VPN can be configured particularly securely and individually via MDM. Certain websites can be made selectively accessible, which increases flexibility and control.
- **Identity encryption:** secure Internet connection for exchanging sensitive data
- **Easy to use:** per-app VPN is user-friendly and only requires one click to be activated.
- **Integration in MobiVisor:** You can use the app in the long term and our support team is always on hand to help.

The advantages of MobiVisor per-App-VPN

Immediate availability

No long waiting times or complicated set-up processes.

German corporate background

Trust and legal certainty through German data protection standards.
