MOBIVISOR

Setting up an Android device for work

Instructions for **Admins** registering an Android device with Android Enterprise using the **device owner QR code**

MOBIVISOR

Important information

The steps shown are exemplary for one type of Android device. The sequence may vary slightly depending on the device.

In this case, continue to the point where your progress matches the instructions again.
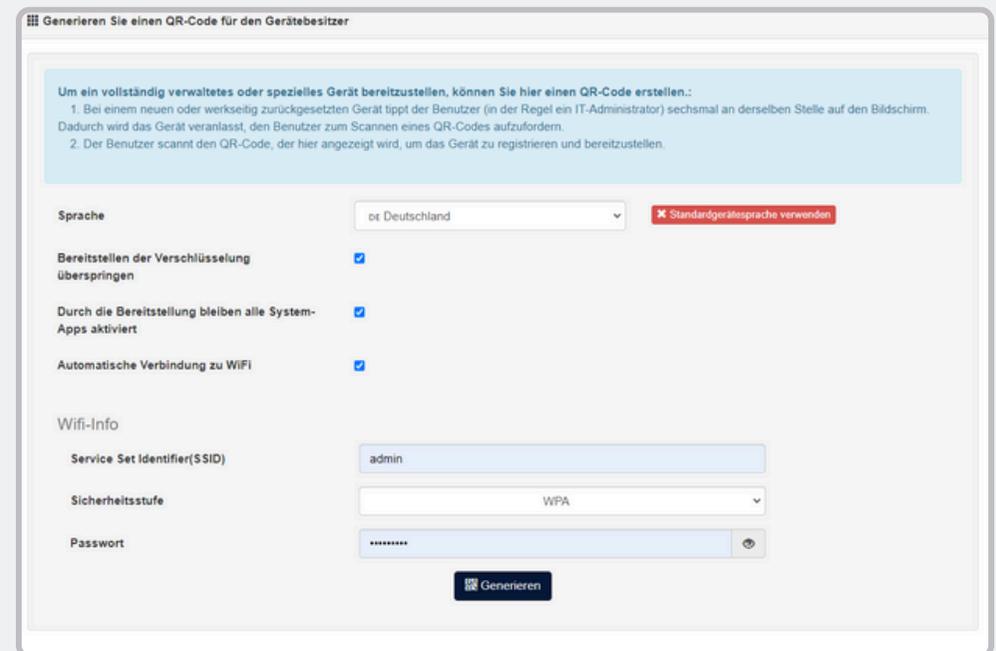

MOBIVISOR

Preparation

- Make sure that all devices are reset to the factory settings
- Ensure a stable internet connection
- First follow the steps to create the DO-QR code in your MobiVisor domain
- It is best to create the user list in advance.

Step 1
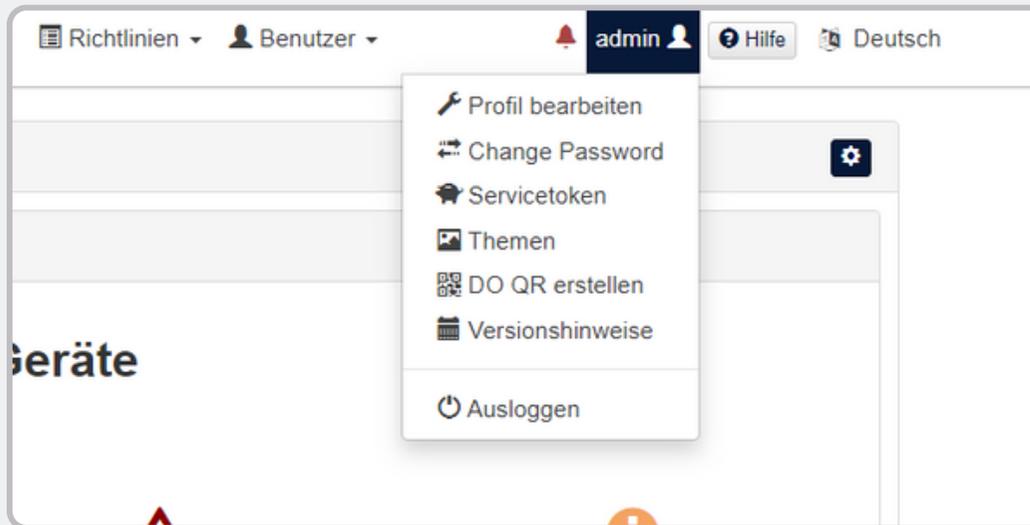

Create the device owner QR code in your personal MobiVisor domain. To do this, call up the menu under your user name and click **create DO QR.**

You can also configure the DO-QR code so that a specific Wi-Fi connection and language are preset directly.

Step 2

| Sicherheitsstufe | WPA |
| Passwort | •••••••• |

[▦ Generieren]

Now click on Generate. The device owner QR code appears.
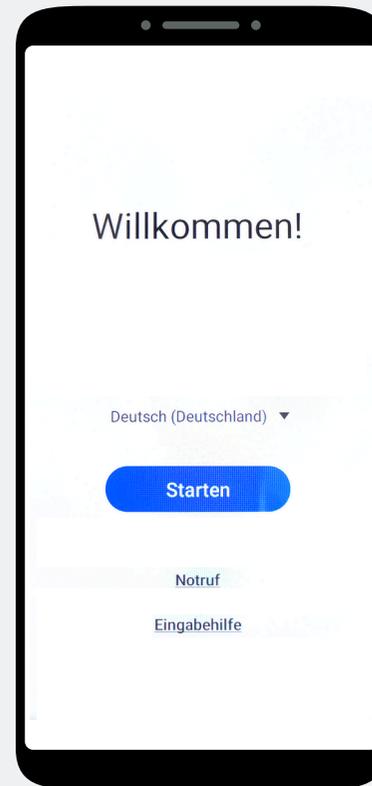

ℹ️ For easier handling, we recommend that you print out the QR code and have it ready for scanning.

Now follow the steps for registering the device on the following pages.

Step 3

Start the device.

Step 4

Willkommen!

Deutsch (Deutschland) ▼

Starten

Notruf

Eingabehilfe

QR-Code wird gesucht...

Tap the screen 7 times until a camera window opens.

Use the camera to scan the DO-QR code.

MOBIVISOR

Step 5

Mit WLAN verbinden

- iotiq-temp
- iotiq-temp
- Digibox-6800
- FRITZ!Box 7330 SL
- IFDGast
- IFDIntern
- FRITZ!Box 6660 Cable MB
- Merkur

If a Wi-Fi connection has been specified in the DO-QR code, the device will automatically connect to it. If not, select a Wi-Fi connection now.

Step 6

Dieses Gerät gehört deiner Organisation

Wende dich an deinen IT-Administrator, um mehr zu erfahren.

Weiter

The device now belongs to your organization. Tap on Continue.

Step 7

Einrichtung des Arbeitsprofils wird vorbereitet...

The device now belongs to your organization. Tap on Continue.
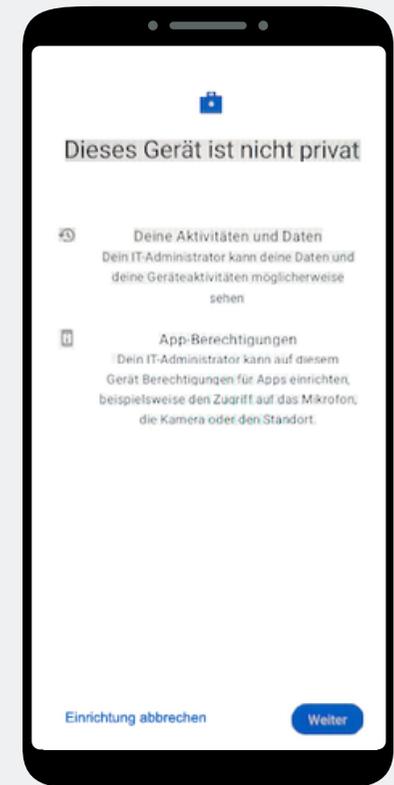

MOBIVISOR

Step 8

In your case, click on **"Business use only".**

Step 9

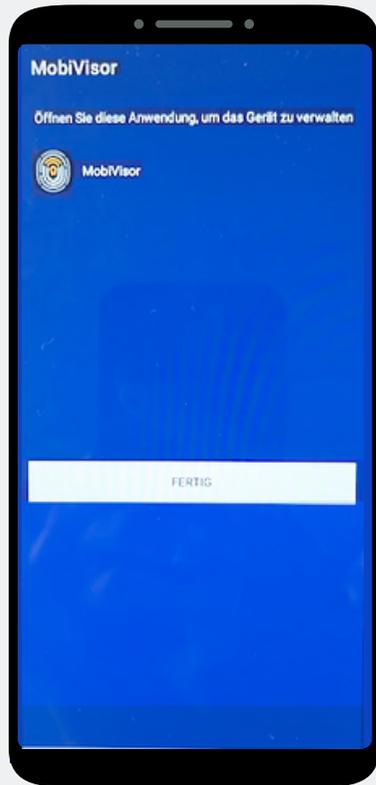

Now start setting up the phone and tap Next.

Step 10

Your device is now a company device. Tap on Continue.

MOBIVISOR

Step 11

The MobiVisor app opens automatically. Tap on **"Done".**

Step 12

Accept the Google services to continue.

Step 13

An app installation is not yet necessary here. Select Later at the top right of the screen to skip this step.
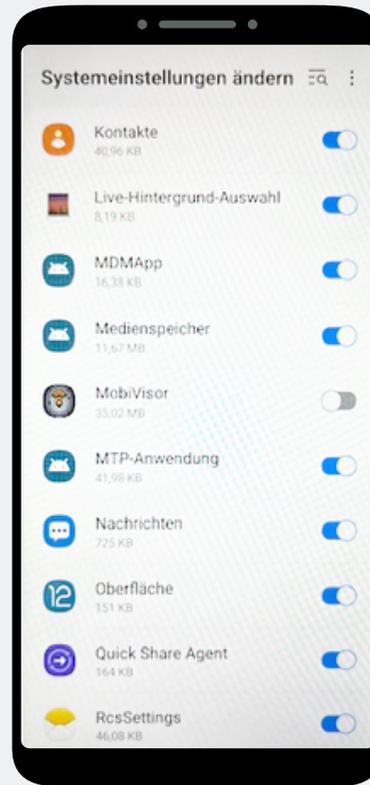

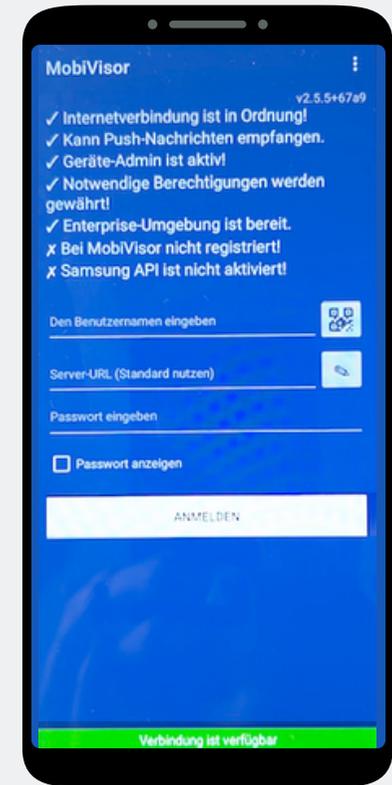

MOBIVISOR

Step 14

In the MobiVisor app, now select:
"Set up Android Enterprise environment".

Step 15

You will automatically land in the system settings.
Grant MobiVisor all authorizations here and then exit the menu with the button at the bottom right.
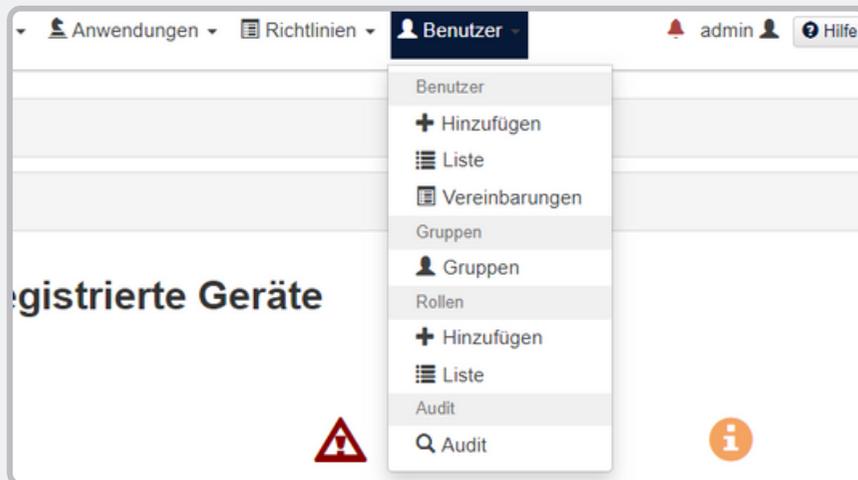

Step 16

You will be redirected back to the MobiVisor app. You can log in the user using a QR code or password and username.

MOBIVISOR

Step 17

The login data for the MobiVisor app can also be found in your personal MobiVisor domain. To do this, go to Users > List.

You can see all the users you have created in the list. You can find out how to create users in the instructions "Creating users in MobiVisor".

You can use the "Time limit for QR code" menu to set how long the QR code can be used for logging in. It must then be regenerated.

| Benutzergruppen | ☐ Android Geräte | ☐ Auto-Update MobiVisor | ☐ Ece | ☐ Geschäftsführung | ☐ IOS Datenschutzvorlage | Zeitlimit für QR Code (Minuten) |

☐ Keine Gruppe [Alles anzeigen]

Suchfilter ☐ Gesperrte Benutzer ☐ Benutzer mit Notizen ☐ Gelöschte Benutzer von LDAP

60

☐ Markieren Sie alle Benutzer	Benutzername ⇅	Geräte ⇅	LDAP ⇅	ASM ❶ ⇅	ABM ❶ ⇅	Hinzugefügt am ⇅	Rolle	Gruppen	Aktionen
	admin admin	0	⊗	⊗	⊗	22.01.24 10:54	Admin		🔳 QR Code ✉ Anmeldung per E-Mail ✏ Bearbeiten 🗑 Löschen

	Toni Toni	1	⊗	⊗	⊗	27.05.20 15:42	Admin		🔳 QR Code ✉ Anmeldung per E-Mail ✏ Bearbeiten 🗑 Löschen

MOBIVISOR

Step 18

To register with a user QR code, click on "QR code". You can now scan this via the MobiVisor app.

Please note that you must use an individual QR code for each user.

Once the device has been successfully registered, a "1" appears next to the user. You will also now find the device in the device list of your MobiVisor domain.

To log in with a user name, password and MobiVisor domain, you can also take the user name from the user list.

The password is **NOT** saved in MobiVisor and cannot be read there. If you would like to use this for logging in, please enter it separately.

MOBIVISOR

Step 19

After successful login:

- Apps from user groups are installed automatically

- Policies are applied automatically

- If the device appears green in the device list and can be controlled via MobiVisor

> **ⓘ** **Only for SAMSUNG devices:**
> Please activate the SAMSUNG API after successfully registering.

> **ⓘ** You can control the connection to MobiVisor within the MobiVisor app.

In the MobiVisor app:

- See applied policies

- Apps that have been installed or are still waiting to be installed

- The "Messages" and "Files" modules only appear if you have added MobiVisor Messaging and MobiVisor Files.
